

ProNovos + Foundation Software

ProNovos directly integrates data on-demand with Foundation Software users to maximize efficiency.

All of your financial data. Right where you need it.

Foundation Software has partnered with ProNovos to integrate two of the industry's premier products. This seamless integration transforms your data into actionable insights, which help you protect profits and boost cash flow.

Unsiload Insights

Know that your teams are working with up-to-date data in a digestible format to find and educate on how to improve performance.

Enhanced Forecasting Capabilities

Apply business intelligence to financial forecasts for increased accuracy and advanced insights into profitability and risks.

Save Time

Reduce errors by eliminating double entries. Sync financial data from the field to the office so your team can focus on higher-value tasks.

Make Better Business Decisions

Automate essential financial reports, such as the WIP and cash flow forecasts, to gain a clear picture into strategic decision planning.

What Foundation Users are saying

When ProNovos says you can be up and running in 48 hours, I can vouch for that.

Casey Dillon
CEO & President, Atlas Excavating

We use ProNovos because it's a really healthy business partner relationship. They listen to your needs and take action.
